About Sunflowers Training

We are a British-Jordanian center. We specialize in offering training programs in the fields of speech and language, hearing, communication, and various rehabilitation areas, all based on scientific evidence and the latest studies. These programs are led by specialized trainers with exceptional practical and scientific experience in these fields. Our courses are offered to students, graduates, and professionals from various Arab countries.

01 Certified by CPD UK

02 Trusted by Thousands of
Professionals

Why Choose Our Courses

Evidence-Based

Our materials follow evidence-based and scientifically proven methodologies.

CPD Accreditation

Our certificates are recognized and counted toward international professional development points

Post-Course Follow-Up

Discussion platforms for case reviews and ongoing practical support are provided

Professional Trainers

Skilled trainers with Master's and PhD degrees, and up to 20 years of practical experience

Course Overview - ADOS-2

The ADOS-2 Clinical Training is a comprehensive 3-day live programme designed to develop participants' confidence and competence in the administration, scoring, interpretation, and clinical application of the Autism Diagnostic Observation Schedule, Second Edition (ADOS-2).

The programme combines theoretical foundations with practical, hands-on learning to equip clinicians with the skills required to administer ADOS-2 Modules 1–4 using standardised procedures, accurately score and interpret assessment data, integrate findings into multidisciplinary diagnostic decision-making, and apply ethical, neuroaffirmative assessment practices.

Across three structured training days, participants progress from foundational knowledge, through practical scoring and coding, to the clinical integration of assessment findings. In addition to the live training, participants receive lifetime access to the LearnWorlds Academy, providing ongoing resources, professional learning opportunities, course updates, and continued support beyond the training programme. This course is designed to strengthen clinical competence, improve assessment consistency, and support high-quality autism diagnostic practice across services.

Course Outcomes - ADOS-2

1. Demonstrate structured administration of ADOS-2 modules

Develop the ability to select and administer the appropriate ADOS-2 module (1–4) based on age and language level, following standardised procedures to ensure reliability and validity.

2. Score, code, and interpret assessment data accurately

Learn to apply algorithm scoring for the ADOS, interpret cut-offs, and understand how scores map onto diagnostic classifications.

3. Translate findings into clinically meaningful recommendations

Use ADOS-2 observations and clinical judgement to form a holistic, evidence-based autism assessment in line with DSM-5 / ICD-11 frameworks and NICE-aligned autism pathways.

4. Integrate multi-source data for diagnostic decision-making

Use ADOS-2 observations and clinical judgement to form a holistic, evidence-based autism assessment in line with DSM-5 / ICD-11 frameworks and NICE-aligned autism pathways.

5. Apply best-practice, ethical, and neuroaffirmative assessment approaches

Develop skills in delivering assessments that are culturally sensitive, ethically sound, and adapted to individual needs, while maintaining fidelity to standardised tools.

About the Trainer

Areeba is a Speech & Language Therapist, ADOS®-2 Certified Clinician, and a Trainer at ASG. With a background in psychology and extensive clinical experience supporting autistic individuals across the lifespan, she is passionate about delivering high-quality, evidence-based autism assessment training. Working alongside Sarah Phelan, Areeba delivers Autism Services Group's comprehensive three-day ADOS®-2 training programme, equipping clinicians with the knowledge, practical skills, and confidence to administer the ADOS®-2 reliably and in line with best-practice standards. She has trained clinicians from a wide range of professional backgrounds, helping to build assessment expertise across multidisciplinary teams.

Next Steps After ADOS-2

After completing the ADOS-2 training, you will:

- **Gain a certification from a recognised training provider.**
- **Gain a connection to Autism Services Group network of clinical partners.**
- **Earn CPD hours to advance your career and showcase expertise online.**
- **Post-training community support led by Sarah Phelan (Coming soon).**

Course Overview - ADI-R

The ADI-R Clinical Training is a comprehensive, interactive two-day training designed to develop clinical competence in the administration, scoring and interpretation of the Autism Diagnostic Interview – Revised (ADI-R).

The course combines core theoretical foundations with practical learning opportunities, supporting clinicians to develop confidence and consistency in using the ADI-R within autism and neurodevelopmental assessments.

Participants will explore the structure and purpose of the ADI-R, develop skills in effective administration and accurate scoring, and learn how to interpret findings and contribute meaningfully to multidisciplinary team (MDT) decision-making.

The training also emphasises ethical and neuroaffirmative clinical practice, supporting high-quality and consistent assessment processes within clinical services.

Course Outcomes - ADIR

1. Conduct comprehensive developmental interviews using ADI-R

Build competency in eliciting and coding caregiver-reported developmental history, focusing on early childhood behaviours relevant to autism diagnosis.

2. Score, code, and interpret assessment data accurately

Learn to apply algorithm scoring for the ADI-R, interpret cut-offs, and understand how scores map onto diagnostic classifications.

3. Translate findings into clinically meaningful recommendations

Use ADI-R observations and clinical judgement to form a holistic, evidence-based autism assessment in line with DSM-5 / ICD-11 frameworks and NICE-aligned autism pathways.

4. Integrate multi-source data for diagnostic decision-making

Use ADI-R observations and clinical judgement to form a holistic, evidence-based autism assessment in line with DSM-5 / ICD-11 frameworks and NICE-aligned autism pathways.

5. Apply best-practice, ethical, and neuroaffirmative assessment approaches

Develop skills in delivering assessments that are culturally sensitive, ethically sound, and adapted to individual needs, while maintaining fidelity to standardised tools.

ADI-R Training Manual

For the ADI-R Clinical Training, each participant will receive a printed training manual, which will be ordered and shipped individually from the UK under the participant's registered name. As the training manual is ordered specifically for each registered participant upon registration, withdrawals, cancellations, or refunds will not be accepted once the manual order has been placed.

About the Trainer

Sarah is the Founder of Autism Services Group and a highly experienced mental health and neurodevelopmental specialist. She worked for the NHS for 10 years within busy mental health teams, supporting individuals with severe and enduring mental health conditions.

Since leaving the NHS in 2021, Sarah has worked as a neurodevelopmental specialist consultant with several organisations across Oxford, supporting individuals and professionals within the field of neurodevelopment.

Sarah's professional experience, combined with her personal understanding of neurodivergence, has shaped her strong commitment to supporting individuals and families and promoting a deeper understanding of neurodevelopmental needs.

She is passionate about delivering high-quality, practical training and working collaboratively with clinicians and professionals to improve understanding, assessment, and support for neurodivergent individuals.

Next Steps After ADI-R

After completing the ADI-R training, you will:

- **Receive a certificate from a recognised ADI-R training provider.**
- **Gain CPD hours to support your ongoing professional development.**
- **Access additional training opportunities through the Training Academy.**
- **Continue your professional learning through access to relevant resources and updates.**
- **Connect with a wider network of clinical professionals and opportunities for professional collaboration**

Target Audience

**Speech & Language
Therapists**

Clinical Psychologists

Psychiatrists

**Occupational
Therapists**

**Other relevant
healthcare professionals**

Registration and Payment

Course Fees	ADOS-2: 500 JOD / ADIR: 400 JOD / Both: 750 JOD
Discounts	Early Registration Discount (before 15/09/2026): 5%
Membership Fees	ADOS-2: 400 JOD / ADIR: 320 JOD / Both: 650 JOD
Certificates	Participants will receive a Certificate of Participation, issued and sent directly by the Autism Services Group.
Withdrawal Policy	Withdrawal deadline and last day of registration: 1st October. No withdrawals or refunds will be accepted after this date, including fees, transfers, or bank charges.
Payments	Payments can be made through various methods within Jordan or internationally. Please contact us to determine the most suitable payment method for you.
